## Using the UCF Financials DataMart

This Addy Note explains how to use the UCF Financials DataMart. The Financials DataMart offers the UCF community a convenient reporting resource available directly from the myUCF portal. There are four types of DataMarts:

- **Encumbrance** contains encumbrances, pre-encumbrances, and encumbered expenses.
- **Actuals** contains revenues, expenditure, and general ledger activity.
- **Budget** contains initial budget entries and budget adjustments.
- **Flair** contains transactions from fiscal year, 1999-2003.

Step	Action
1.	Go to the myUCF portal home page ( <a href="http://www.my.ucf.edu">www.my.ucf.edu</a> ).
2.	Select the Sign in to MyUCF launch box. <div></div>

### 3. Enter your NID and Password.

- **NID:** Your **NID** is your UCF Network Identification number. If you need to retrieve it, click on the **What is my NID?** link in the Sign on section of the **UCF Federated Identity** page.
- **NID Password:** You can reset your password by clicking the **What is my NID Password?** link in the **Sign on** section of the **UCF Federated Identity** page. Then click **Change NID Password** and follow the instructions

#### UCF Federated Identity

<div><div>NID</div><div><input type="text" value="jaddy"/></div></div> <div><div>Password</div><div><input type="password" value="....."/></div></div> <div><div>Sign on</div></div>	<div><div>my.ucf.edu</div><div>You have asked to login to my.ucf.edu</div></div> <div><div>What is my NID?</div><div>NID Password Reset</div><div>Trouble Signing On?</div></div>
--	---

By signing on, you agree to the terms of the UCF Information Technologies and Resources Policy.

8. Depending on your needs, click the desired **DataMart** button. The buttons provide information for the following topics: Encumbrance, Actuals, Budget and FLAIR.

**FINANCE & ACCOUNTING DATAMART**  
User Guide

Which DataMart do you want to view?

**Encumbrance**

What's in Encumbrance DataMart?

Encumbrance DataMart contains:

- Encumbrance
- Preencumbrance
- Expense

Encumbrances are refreshed daily due to the nature of the transactions. The transaction created each time a document is budget checked is shown in the summary by the purchase order (PO) line. A pre-encumbrance shows when a requisition is budget checked. An encumbrance and a relief of pre-encumbrance are shown when a PO is budget checked. An expense and encumbrance relief are shown when a voucher is budget checked. As of November 2019, salary encumbrances are also shown. Encumbrance relief for salary encumbrances will reflect the date when the salary expense is posted. When the voucher or the salary expense are sent to the General Ledger, the expenses will be shown in Actuals DataMart as expenditures.

**Actuals**

What's in Actuals DataMart?

Actuals DataMart contains:

- Revenue\*
- Expenditures
- General Ledger Activity

Actuals of expenditures and other General Ledger (GL) journals are added nightly as they post to the General Ledger. The transactions in Actuals DataMart come from posted General Ledger Journals, whether the transaction originated in the General Ledger or a subsystem, i.e., AP - Payables, HR - Human Resources, SF - Student Financials, CA/PC - Contracts/Project Costing, BI - Billing, and AR - Accounts Receivable. AP journals may also contain supplemental purchase order, voucher, or invoice information.

\*Revenue is currently displayed on an accrual basis. This includes payments only, not billed amounts. Current revenue includes any date from November 1, 2013, forward. To view current revenue, the Reporting Period should display a date from FY 2014 (Period 5) to the present. Specify three conditions. Use either of the options shown for the third condition.

Field Name	Operator	Value
1. Record Type	Is	AR
2. Account	Is	155001
3. Journal ID	Begins With	ARP
3. Journal ID	Begins With	ARM

Prior to November 2013, revenue showed on a cash basis. To view cash-based entries, specify a Field Name of Account, an Operator of IS, and a Value of any Account code beginning with 6. The Reporting Period should display FY 2014 or earlier to display transactions posted prior to and including fiscal year 2014, Period 4.

**Budget**

What's in Budget DataMart?

Budget DataMart contains:

- Initial Budget Entries
- Budget Adjustments
- Converted Budget Entries\*

The Budget DataMart shows the current year's budget entries. Both initial and adjustment budget entries are shown. Any new transactions are posted nightly. Budget additions display as negative values.

\*Project budget details are associated with different ledgers. To obtain specific dates, run a query specifying a Field Name of TRANSTYPE, an Operator of IS, and a Value of one of the three budget ledgers:

- CH\_PGRT\_BUD for current sponsored project budgets dated November 2019 or later
- CH\_PG\_BUD for construction and auxiliary projects and sponsored project budgets dated between November 2013 through October 2019
- CC\_PC\_BUD for all project budgets prior to November 2013.

**FLAIR**

What's in FLAIR DataMart?

FLAIR DataMart contains disbursement data from the legacy FLAIR system from Fiscal Year 1999 to 2003. Take note of the following if you are using this DataMart:

- Dept/Proj# field has the old FLAIR 7-digit Organizational Code plus two zeros. If your FLAIR OrgCode# is 0250000, it will be 025000000.
- Depending on the type of transaction, Encumbrance# field may also mean PO#, TAR#, or Food Requisition#.

This data does not contain any transactions past year end of fiscal year 2003.

9. Select a **Reporting Period**, or accept the default. For departments, choose a fiscal year (FY) or budget period (BP) from the dropdown menu. For project, choose **Projects**.

Field Name	Value
1. Department/Project	Is
2. Department/Project	Is
3. Department/Project	Is

Reporting Period: BP 2020 Departments  
 BP 2019 Departments  
 BP 2018 Departments  
 BP 2017 Departments  
 BP 2016 Departments  
 BP 2015 Departments  
 BP 2014 Departments  
 BP 2013 Departments  
 BP 2012 Departments  
 BP 2011 Departments  
 BP 2010 Departments  
 BP 2009 Departments  
 BP 2008 Departments  
 Projects

Sort by Department/Project Date

**Note:** In the Encumbrances DataMart, the **Reporting Period** for departments is listed by **BP**, which is equivalent to a fiscal year. The **Reporting Period** for departments is listed by **FY** in the **Actuals DataMart** and the **Budget DataMart**.

10. Define the scope of your search using the dropdown list in each selection criteria field. Start with the **Line 1 Field Name** dropdown arrow.

Field Name
1. Department/Project
